

## YEALMPTON WOODLAND BURIAL

We are frequently asked what species of flowers may be planted on our beautiful site. As it is critical that we retain the woodland nature of the site, the following list of recommended wild flowers has been prepared for you to ensure that the habitat is controlled and authentic.

**Please ensure that you buy WILD FLOWER bulbs, plugs or seeds and NOT garden varieties.** Please note that as some backfilling of graves may take place, planting is best left until six months after the burial.

Latin Name	Common Name	Flowering Time	Flower Colour
<i>Alliaria petiolata</i>	Hedge Garlic	April-June	White
